SUBJECT  Asbestos wastes at Certain-teed facility in St. Louis					
SUMMARY OF COMMUNICATION  Lyle said Art Groner thought it best that EPA pursue further discussion with Certain-teed since we ordered them to cover the asbestos wastes back in 1979. Since the ordered action was completed and a vegetation/soil cover was established, MSD needed access to work on a nearby location. Brush was removed from over the area where the asbestos was covered, and heavy equipment was run over the site. As a result, some of the asbestos was exposed and uncovered. Lyle said any further relief should be worked out with MSD as well.
